I'm your AgroSaarthi assistant. Ask me anything about farming, pest control, or crop management!

Hello! I'm your AgroSaarthi AI assistant.  
How can I help you today?

My tomato plants have yellow leaves. What could be wrong?

Yellow leaves on tomato plants could indicate several issues:

1. Nitrogen deficiency
2. Overwatering
3. Early blight disease
4. Magnesium deficiency

Show me treatment options please.
